

# Licensed Optician Needed for Capitol Hill Store!

## **Who is Ollie Quinn?**

We're a motley crew of doers, thinkers, makers and creators from across the globe that have come together to create something special for you - our friends, our customers, our communities. Our specialty? Exceptional, in-house designed eyewear at an affordable price.

We come from a foundation of independence. That means we keep prices fair – while using the best quality materials - by designing all frames in-house and only selling via our own boutiques.

In order to make the process easy, honest and open, this starts with offering one price point across all frames, including prescription lenses.

Some might say, we're your modern day spectacle-wearing hero/ines with a penchant for style! Ok, we said some.

What else will you find at an Ollie Quinn boutique? A charismatic bunch of people who like to chat and do things together. Lots of things. Collaboration and community involvement is how we come up with the really good stuff.

Be part of the OQ Crew! Come and work with our close-knit team in our first American boutique.

## **Our Opticians**

- Excited to work in a fast-paced environment
